1. Document Purpose

The purpose of this document is to guide users on how to synchronize CA PPM Clarity users with the BizViz Portal. It is recommended that users follow the step-by-step process given below to successfully configure the CA Clarity server.

2. Prerequisites

2.1. Software

- Browser that supports HTML5
- Operating System: Windows7

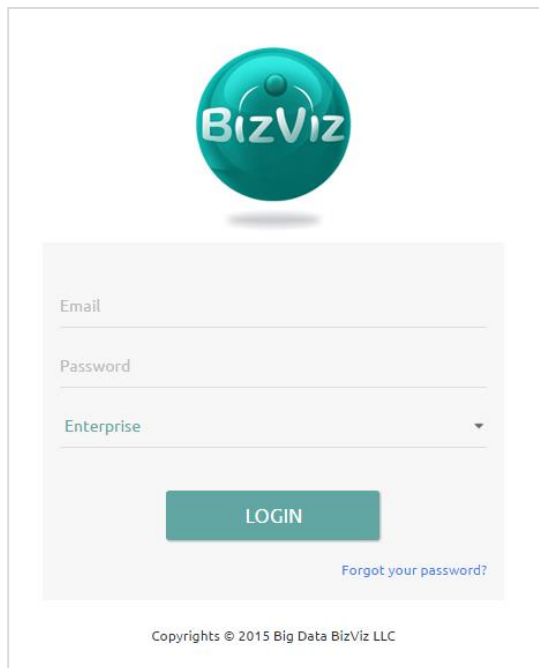

2.2. Knowledge of BizViz Server

The user should have a basic understanding of the BizViz Serve

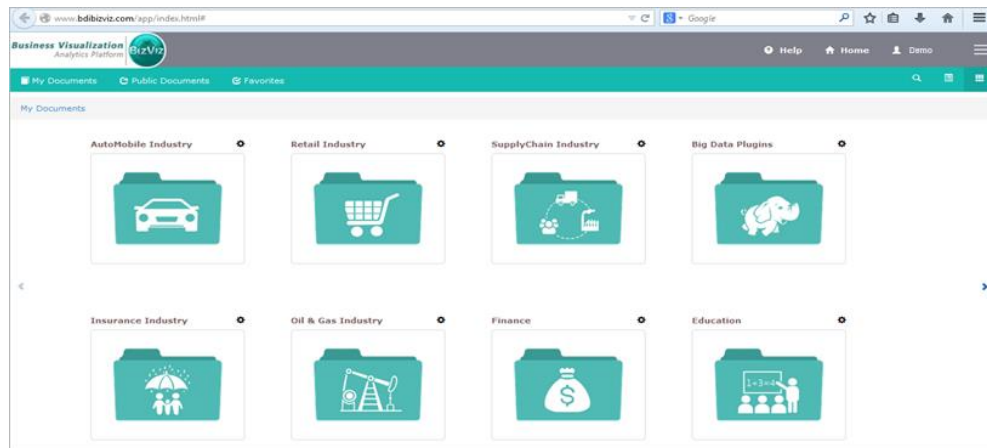

3. Step-by-Step Process

3.1. Login to the BizViz Portal

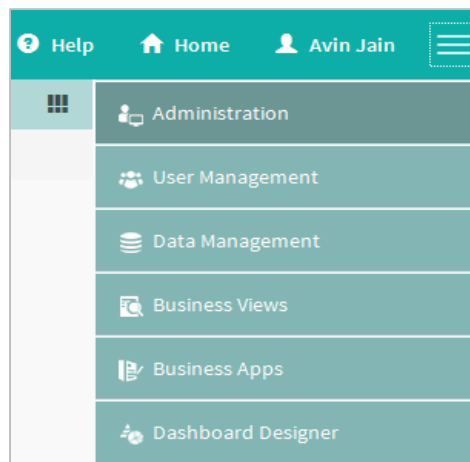

- In the URL bar, enter → <http://apps.bdbizviz.com/app/index.html>
- Enter your credentials to Login

- Click on '**Login**' to view the BizViz Portal Home Screen

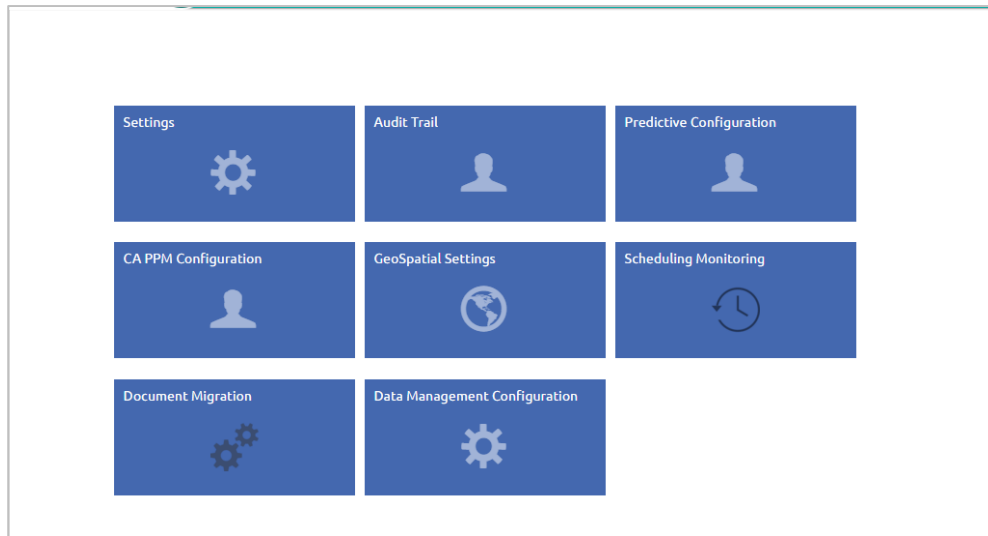

iv) Click on the 'Menu'  button to display a list of the installed applications.

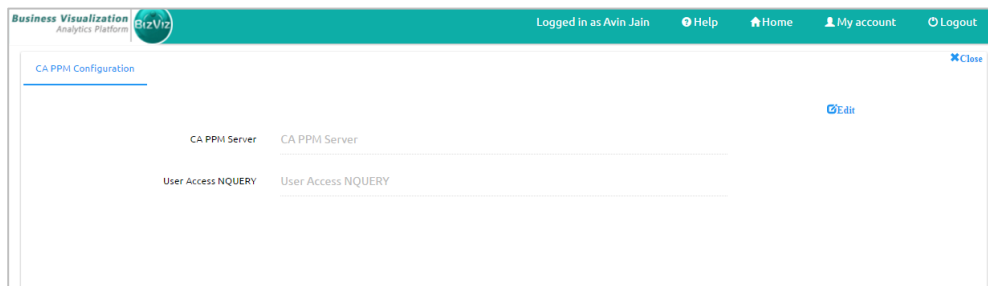

v) Click on 'Administration' plug-in available in the above figure (see above)

3.2. Configuring CA PPM Settings

i) Click on 'CA PPM Configuration'

ii) Clicking on the 'CA PPM Configuration' will redirect user to the below given page

iii) Enter the following fields:

- **Clarity Server:** URL details of Clarity Server (ex: http://dashboards.xyz.com)
- **User Access NQUERY:** Name of the Query that will fetch a list of Clarity users.
